

- 1) Will it result in a single or multiple award? **Single**
- 2) Is the Cost/Business Proposal (Part III on page L-10 of the RFP) included in the 75-page limit for this proposal? **No**
- 3) Should the cost proposal be submitted as a separate volume than the technical proposal? **Yes**
- 4) Should the COI plan, TSCA and FIFRA security manuals, and QA Management Plan be submitted in a separate volume. If so, will this be outside the 75-page limit? **The TSCA & FIFRA manuals are supplied by the EPA; they are not provided by the contractor. The COI & QA plans shall be separate and do not count towards the 75 page limit.**
- 5) Page L-11 indicates that the Project and Deputy Project Managers are the only P4s required, but 4,860 hours are allotted each year of the contract (with optional quantities) for P4s. Since a standard work year represents approximately 2,080 hours/person, more than 2 people would be assumed to work full time as a P4 Project Manager or Deputy Project Manager under this contract. Is it the intent of the RFP to include only 2 people (Project Manager and Deputy Project Manager) in the P4 category? Are no other P4s needed? **The titles of P-levels listed (ie Project Manager & Deputy Project Manager) are only examples of whom to include within those levels. Please include whomever you feel to be appropriate for that level. The solicitation will be amended to make that clear.**
- 6) Page L-17 indicates that past performance information is required for subcontractors that are projected to do greater than or equal to \$10,000 of the work under this procurement. Is it the intent of the RFP to require past performance information for such small subcontracts? **Yes. Please adhere to the \$10K limit.**
